Grill Friends™ Super Silicone™ Stop-and-Go Tongs™
***Color-Coded Red and Green to Prevent Cross-Contamination—won't Melt,
Scratch or Bend!***

The Grill Friends™ Super Silicone™ Stop-and-Go Tongs™. The 12-inch professional strength stainless-steel tongs have been in the works for years. The silicone tips have a beveled edge to make it easier to get under the food and the extra-long silicone cushions on the sides make them comfortable for every hand. But the really different and special feature is in the color...for nearly a decade, Karmel has been color-coding her tongs with red and green duck tape. The color-coding helps to prevent cross-contamination of raw and cooked foods.

“The different colors help me to remember which pair of tongs I used for raw food, like chicken, and which are safe to use for the cooked food. I used the international colors of **RED** (STOP) and **GREEN** (GO) to make it easy on home cooks (and restaurant chefs) to remember which tongs to use while cooking and which tongs to use once the food is done. I’ve been giving this tong tip out in my classes, on television and on my website and now, you can own your own pair of custom-made Stop-and-Go tongs—*without* the duck tape.” If you can’t remember which color goes with which...Karmel de-bossed the words *raw* and *cooked* on the appropriate tongs. Never wonder which tongs are clean again—with the Stop-and-Go Tongs, you are good to GO! Besides working hard at the grill, these tongs are perfect for indoor cooking and the heat-resistant silicone tips are safe for all non-stick surfaces. The Grill Friends Super Silicone™ Stop-and-Go Tongs™ are packed in the BBQ to Go Kit and are sold open stock as a pair in a black and red gift box. Suggested retail for the gift-boxed set of tongs is \$24.00.

The *Grill Friends™ Super Silicone Multi-Use Tongs* are the perfect partner to the Grill Friends™ Super Silicone Stop-and-Go Tongs. The tongs are made from professional strength stainless steel and black heat-resistant silicone. Don’t put your tongs away once the food is cooked. It is the favored tool of chefs and caters and savvy – home cooks to transfer all types of food—even desserts to plates and serving platters.

“It is my secret carving weapon. A good pair of tongs will hold the food steady and won’t puncture the meat—like a fork—as I carve it. And, once the food is on the table, they are the

best serving utensils,” explains Karmel. Besides having all of the same benefits of the Stop-and-Go Tongs, the black and silver look goes with any serving style. These strong 12-inch stainless-steel tongs have an extra-long heat-resistant silicone cushion on the sides and beveled tong tips that make the tongs act like both a spatula and tongs. Perfect for serving, perfect for handling food—and they also are great with a sauté pan or at the grill when you don’t need to keep track of the “raw” and the “cooked”! The Grill Friends™ Super Silicone Multi-Use Tongs are sold separately for a suggested retail of \$9.99. Both the Super Silicone™ Stop-and-Go Tongs™ and the Super Silicone Multi-Use Tongs are available nationally at kitchen, gourmet and housewares stores, in mail-order catalogs and online at www.BBQPROSHOP.com.
